

Dilsha Indeewari Atugedara

Software Engineering Intern

217-C, Minuwangoda Road, Udugampola, Gampaha, Sri Lanka
+94 74 290 5191

dilshaa.23@cse.mrt.ac.lk

Summary

Computer Science and Engineering undergraduate at the University of Moratuwa with hands-on experience in full-stack development, UI/UX design, and low-level computing. Proficient in Java, Python, JavaScript, and Next.js with a strong grasp of OOP, REST APIs, and Firebase-backed architectures. Eager to apply these skills as a Software Engineering Intern.

Education

BSc (Hons) Computer Science and Engineering, Sri Lanka, Mar 2024 - Present • GPA: 3.70

University of Moratuwa

G.C.E. Advanced Level - Physical Science Stream, Sri Lanka, 2022/23 • Island Rank 148

Rathnavali Balika Vidyalaya, Gampaha

Skills

- Object-Oriented Programming
- Data Structures & Algorithm Design
- Debugging Skills
- API Integration
- Git Version Control
- UI/UX Design (Figma)
- Code Review
- Team Collaboration

Projects

BrightBuy - Retail Inventory & Order Management System

React, Express, PostgreSQL, Docker

github.com/KeshRD/BrightBuy-G16

- Built a full-stack e-commerce platform for a consumer electronics retail chain managing inventory, online orders, stock updates, and customer transactions.
- Implemented JWT-based authentication and REST APIs; containerized with Docker for streamlined deployment.

IDKPay - Shared Expense Tracker

Next.js, React, Firebase (Firestore + Auth), Tailwind CSS, shadcn/ui

github.com/Dilsha21/IDKPay

- Built a full-stack expense-splitting app with real-time balance tracking, smart debt settlement logic, and multi-user group management using Firestore.
- Implemented Firebase Authentication for route protection and handled complex edge cases in debt recalculation across shared expense updates.

CryptX 2.0 Designathon - CodeBreak Team (Top 8 Finalist)

Figma, WCAG 2.1, Canva

University of Sri Jayewardenepura

- Designed high-fidelity Figma screens for the Nudge app with a full design system - WCAG AA contrast ratios (up to 11.4:1), type scale, and a reusable component library.
- Conducted a 21-point heuristic audit of Goodreads using Nielsen's 10 heuristics; produced a redesign with annotated rationale and a 20-slide pitch deck.

Nano-Processor Design

- Designed a nano-processor architecture using digital circuits; gained hands-on experience with instruction sets, control logic, and low-level computing.

Extracurricular

- Volunteer Tutor, Soyuru Sathkara 2025 - supported G.C.E. O/L students with subject guidance and mentoring
- Finance Committee Member, ENIGMA 2025 - led outreach to corporate HR departments to secure sponsorships for the event.
